Four Questions Answered in Virginia Last week we sent a circular to the mittee in Virginia, asking four questions-

1. Who is the favorite of the Democrats of your county for President?
2. Are the Democrats in your county in favor of raising the tariff question in the presidential campaign?
3. Are they in favor of a tariff for revenue only?

4. Or, are they in favor of a tariff to pro-set domestic industries, and so adjusted

In every case the answer was to be the person's own opinion.

The answers which we have received up

1. The man is not much discussed. Randall and Bayard are the favorites if expedient to nominate them.

2. Decidedly opposed to it.

3. No.

North Carolina-Internal Taxes. We are glad to learn from the action of the Democratic State Committee of North Carolina that the Democrats of that State are in favor of the abolition of all internal taxes. Some of the North Carolina Democratic journals had been so strenuous and persistent in their opposition to the repeal of the laws imposing those taxes that we had been led to doubt whether the Old Dominion and the Old North State were in full accord on the subject.

These internal taxes have demoralized the people of the United States in more ways than one. When we see such men AS BLACKBURN, MORRISON, CARLISLE, WAT-TERSON, &c., &c., denouncing in unmeasured terms a tariff-tax and advocating in-

ured terms a tariff-tax and advocating internal taxes—denouncing monopolies and upholding the worst of monopolies in the shape of the whiskey-dealers' ring—we cannot but conclude that the enormities of the internal-revenue system are untold. Let us have done with such taxes, and free our leaders from such influences.

MR. TILDEN.—MR. TILDEN wrote a letter to the Iroquois Club, of Chicago, the other day. He had a fine opportunity to declare it to be his unalterable purpose to refuse to be a candidate for President of the United States; but he did not avail himself of it. But "he came in one of it." Here is the closing paragraph of his letter:

"No reform of administration is possible so long as the Government is directed by a party which is under the dominion of false doctrines and animated by enormous pecuniary interests in the perpetuation of existing abuses. The first effectual step in the reform of our Government must be a fundamental change in the policy of its additional transport of the properties of the properties and the properties of the properties and animated by enormous pecuniary interests in the perpetuation of existing abuses. Mr. John S. Barbour, in reference to his yote yesterday against taking up the Morrison bill, says he did not vote so because he is opposed to tariff reform, but for the same reason that he voted against increasing the duty on wool, which is that he is opposed to running any risk of dividing the Democratic party, as the Republicans the results of the proposed to running any risk of dividing the Democratic party, as the Republicans the results of the resul ing the duty on wool, which is that he is opposed to running any risk of dividing the Democratic party, as the Republicans hope and some Democrats fear may be the result of making the tariff the subject of discussion in the present Congress and a leading question in the next presidential campaign.—Washington letter—Alexandria Gazette.
